H.R. 5488 Rep. Howard, et al.; 9/9/86

Disaster Relief Act Amendments of 1986 - Amends the short title of the Disaster Relief Act of 1974 to read the "Major Disaster Relief and Emergency Assistance Act."

Amends such Act to redefine "emergency" to include any instance for which, in the President's determination, Federal assistance is needed to supplement State and local efforts to save lives and protect property.

Repeals provisions of the Public Works and Economic Development Act of 1965 concerning economic recovery for disaster areas.

Amends the Disaster Relief Act of 1974 (hereinafter referred to as the Disaster Relief Act) to revise procedures concerning State requests for emergency assistance. Describes the determination to be made by the President concerning the nature of an emergency prior to authorizing emergency assistance under such Act.

Authorizes the President, in any emergency, to: (1) direct any Federal agency to use its resources to save lives and protect property and public health; (2) coordinate Federal agencies with State and local officials in providing emergency assistance; and (3) provide technical and advisory assistance to affected State and local governments in the performance of essential community services in the event of an emergency.

Sets forth the manner by which the President is authorized to provide emergency assistance. Limits funds to a set amount for any single emergency, except when the President determines that continued emergency assistance is immediately required. Requires a report from the President to the Congress when such single-event funds are exceeded.

Redefines "major disaster." Makes other technical and conforming amendments. Requires facilities receiving such emergency assistance to have been covered by adequate and reasonable flood insurance in order to receive full assistance benefits. Provides for the repayment of duplicated insurance benefits.

Amends title III of the Disaster Relief Act to provide for: (1) a declaration that action taken or assistance provided pursuant to such Act that restores facilities substantially as they existed before the disaster shall not be deemed a major Federal action significantly affecting the quality of the environment within the meaning of the National Environmental Policy Act of 1969; (2) actions by the Attorney General against any party whose acts or omissions may have caused or contributed to the events resulting in a presidential declaration of emergency or disaster; (3) audits and investigations by the President, in conjunction with the Comptroller General, to assure compliance with the Disaster Relief Act; and (4) criminal and civil penalties for violations of such Act.

Amends title IV of the Disaster Relief Act to: (1) provide that all requests for a declaration by the President that a major disaster exists shall be made by the Governor of the State affected, who shall provide the President with certain information; (2) provide that in any case where an eligible applicant (or the State) is unable to assume its cost-sharing responsibility, the President is authorized to lend or advance a 25 percent share, such loan to be repaid with interest; (3) allow the President to assist State and local governments in performing essential services, distributing food, medicine, and supplies, and coordinating disaster assistance organizations; and (4) authorize Federal agencies to provide assistance by utilizing resources available under any Act, distributing food, medicine, or supplies, donating equipment and supplies to State and local governments, and performing any emergency work or services essential to save lives and protect and preserve property.

Authorizes the President to make contributions to State or local governments to help repair or replace public facilities which were damaged or destroyed by a major disaster. Limits such contributions to 75 percent of the net eligible cost. Authorizes the President to make the same such contributions to private nonprofit facilities, with the same contribution limit. Prohibits such contributions from being made unless the entity affected agrees that such facility shall be repaired in compliance with flood plain management and hazard mitigation criteria required by the President, in conformity with the Coastal Barriers Resources Act and other applicable Federal statutes.

Allows a State to receive a 50-percent-of-repair-cost contribution for facilities damaged in a major disaster in lieu of any other contribution when a State or local government determines that it would be best not to repair or replace such damaged facilities. Limits the Federal share of disaster assistance available for repairs and reconstruction of public facilities and private nonprofit facilities and debris removal to 75 percent of eligible costs.

Revises provisions concerning temporary housing assistance for those displaced by a major disaster or emergency. Authorizes the President to provide such assistance by using Federal departments or agencies. Limits the duration of Federal financial and operational responsibilities for temporary housing assistance to 18 months from the date of the major disaster, unless the President determines that extraordinary circumstances require an extension beyond such period. Authorizes the President to contribute up to 50 percent of the cost of implementing hazard mitigation projects.

Increases the duration of unemployment assistance to individuals unemployed as a result of a major disaster to 52 weeks from the occurrence of the disaster (currently 26 weeks). Directs the President to provide disaster unemployment assistance through agreements with States.

Modifies the requirement that the States repay the advances on matching grants made by the Federal Government for individual and family disaster relief grants by deferring repayment (and the interest accruing thereon) for a maximum period of two years from the date of the major disaster declaration. Increases from $5,000 to $7,500 the maximum aggregate grant amount which an individual or family may receive with respect to any one major disaster.

Repeals disaster relief provisions regarding purchasers of Federal timber.

Removes the Canal Zone from coverage under such Act.

Prohibits a State from being ruled ineligible to receive disaster assistance solely by virtue of an arithmetic formula based on income or population.

Declares it to be U.S. policy that: (1) the building of democracy and the restoration of peace in Central America are important to U.S. interests; and (2) the Contadora Document of Objectives which provides a framework for peace in the region is to be encouraged and supported. Declares that the United States supports, as essential to such policy, national reconciliation in Nicaragua and a verifiable agreement based on the Document of Objectives, including free and fair elections.

Declares that the United States will address such concerns through economic, political, and diplomatic measures, including support for the Nicaraguan democratic resistance and bilateral negotiations with Nicaragua aimed at peacefully resolving the conflict. States that the duration of such negotiations shall depend on whether Nicaragua respects certain human freedoms and there has been a halt to the introduction of foreign military personnel and Nicaraguan aggression (including support for international terrorism). Provides that U.S. actions are consistent with its right to defend itself and assist its allies in accordance with international law.

Declares it to be U.S. policy to assist all groups within the Nicaraguan democratic resistance which are committed to national reconciliation in Nicaragua. Prohibits assistance to groups which violate internationally recognized human rights or engage in drug smuggling.

Title I: (Not Present)

Title II: Social Security Trust Funds - Social Security Trust Funds Management Act of 1986 - Amends title II (Old Age, Survivors and Disability Insurance) of the Social Security Act to direct the Managing Trustee of the Federal Old-Age and Survivors Insurance Trust Fund and the Federal Disability Insurance Trust Fund (OASDI trust funds), as soon as possible without exceeding the public debt limit or jeopardizing the timely payment of OASDI benefits, to invest any amounts in the trust funds that have not been invested solely by reason of the public debt limit, if the taxes with respect to which such amounts were appropriated have been received in the general fund of the Treasury. Eliminates such receipt of taxes requirement on July 1, 1990. Defines the term "debt limit impact period" as any period for which the Secretary of the Treasury determines that the issuance of Government obligations sufficient to conduct the financial operations of the United States may not be made without exceeding the public debt limit. Requires the Managing Trustee, upon expiration of any debt limit impact period, to: (1) reissue to each OASDI fund obligations identical to obligations which were redeemed during such period and which would not have been redeemed if such period had not occurred; (2) issue to each OASDI trust fund obligations identical to obligations which were not issued during such period but which would have been issued if such period had not occurred; and (3) pay to each OASDI trust fund an amount equal to the interest such trust fund failed to earn because of redemptions, disinvestments, or the lack of investments during a debt limit impact period solely by reason of the public debt limit.

Provides for the immediate availability of OASDI tax receipts exclusively for purposes of the OASDI program upon their transfer from the general fund of the Treasury. Requires such transfer to occur upon the receipt of such taxes by the Treasury. (Currently, monthly transfers are made.)

Requires members of the OASDI trust funds' Board of Trustees to faithfully execute their duties, but does not impose a fiduciary duty. Requires the Board to meet at least twice each year. Sets forth provisions requiring reports by the Board to the Congress and the Managing Trustee to the Board and the Congress on the status and operation of the OASDI trust funds during any debt limit impact period.

Directs the Managing Trustee to immediately invest such portion of the OASDI trust funds as is not required for current withdrawals. Allows the Managing Trustee to sell or redeem OASDI trust fund obligations only for OASDI program purposes. Directs the Managing Trustee to sell and redeem obligations necessary to ensure timely payment of OASDI benefits, even if either OASDI trust fund holds any amounts not invested by reason of the public debt limit, provided the principal amount of such obligations shall not exceed the principal amount of obligations that would have been sold or redeemed under normal operating procedures.

Title III: Balanced Budget and Emergency Deficit Control - Balanced Budget and Emergency Deficit Control Reaffirmation Act of 1986 - Amends the Balanced Budget and Emergency Deficit Control Act of 1985 (Gramm-Rudman-Hollings Act) to revise sequestration procedures.

Directs the Comptroller General to submit the General Accounting Office's (GAO) initial and revised sequestration reports for a fiscal year to the Director of the Office of Management and Budget (OMB). (Current law requires such reports to be submitted to the President.) Requires the GAO reports to contain the Comptroller General's views concerning the estimates, determinations, and specifications contained in the report submitted by the Directors of OMB and the Congressional Budget Office (CBO). Requires the Director of OMB to issue to the President and the Congress: (1) by September 1 preceding the fiscal year, an initial sequestration report based on the initial GAO report, providing the same items of information as contained in the OMB-CBO report, and explaining any deviations between the estimates, determinations, and specifications included and the views of the Comptroller General in the GAO report; and (2) by October 15, a revised report as necessary in light of the revised GAO report. Requires such revised report to contain the same estimated amounts of budget authority, outlays, spending authority, revenues, obligation limitations, obligated balances, unobligated balances, loan guarantee commitments, and direct loan obligations as contained in the initial report unless legislation is enacted, a final regulation is promulgated, or a sale of assets is announced after such initial report which requires a change. Requires the President to issue any necessary initial sequestration order on September 3 (currently, September 1) and the final order on October 17 (currently, October 15). Requires the President's initial and final orders to be in accordance with the initial and revised OMB (currently, GAO) reports.

Terminates procedures providing for sequestration from national defense accounts through the termination or modification of existing contracts.

Sets forth amounts for economic assumptions required to be used by OMB, CBO, and GAO in preparing sequestration reports for FY 1987. Requires the Directors of OMB and CBO and the Comptroller General, by July 15 preceding FY 1988 through 1991, to each submit to the Temporary Joint Committee on Deficit Reduction a report proposing economic assumptions for use in preparing sequestration reports for each such fiscal year. Directs the Committee, before September 15, to report a joint resolution which: (1) specifies amounts for economic assumptions, within the range of amounts submitted by the Directors and the Comptroller, to be used by OMB, CBO, and GAO for sequestration reports for the upcoming fiscal year; and (2) directs the President to modify the most recent sequestration order for such fiscal year to implement the amount specified for each economic assumption. Requires each Director or the Comptroller General to use the amounts he or she proposed in preparing sequestration reports if such joint resolution is not enacted.

Sets forth rules by which the Directors and the Comptroller General, in preparing sequestration reports for a fiscal year, shall calculate budget outlays resulting from specified items of budgetary resources for an account for purposes of determining budget outlays for non-defense programs for such fiscal year. Requires the Directors, in determining the amount of budget base outlays resulting from obligated balances for defense and non-defense programs for a fiscal year, to use the methodology they used in determining such outlays in the sequestration report for FY 1986. Requires the Directors and the Comptroller General, in preparing initial and final sequestration reports for a fiscal year, to assume that: (1) only those regulations which have been promulgated as final regulations by August 15 (with respect to initial reports) or October 5 (with respect to final reports) will be in effect during such fiscal year; and (2) only those sales of assets by the Government which are announced by August 15 (for initial reports) or October 5 (for final reports) will occur during such fiscal year. Requires the Directors and the Comptroller General, in preparing sequestration reports, to: (1) include amounts of budget authority and budget outlays necessary to pay for any adjustments for Federal statutory pay systems or military pay enacted by law; and (2) assume that the percentage of the amounts of budget authority and budget outlays necessary to pay for such adjustments that will be absorbed by all Federal agencies will not exceed the average of the percentage of such amounts absorbed by all agencies for the three most recently completed fiscal years for which such adjustments were made. Requires the Directors and the Comptroller General, in preparing FY 1987 reports, to assume that advance deficiency payments shall be made available to producers who agree to participate in an acreage limitation or set-aside program for the related crop year based on 40 percent of the projected payment rate for wheat and feed grains and 30 percent of such rate for upland cotton and rice.

Requires the Comptroller General's report to the Congress on the compliance of the President's sequestration order with sequestration procedures to include information on the compliance of OMB's sequestration reports with such procedures and any recommendations for improving such procedures.

Exempts the budget account for Washington Metropolitan Area Transit Authority interest payments from reduction pursuant to a sequestration order.

Sets the revised amount for FICA revenues for old-age, survivors and disability insurance within the recommended levels of Federal revenues at $200,700,000,000 for FY 1986, $216,850,000,000 for FY 1987, and $248,250,000,000 for FY 1988.

Sets the revised levels of total new budget authority at $1,062,900,000,000 for FY 1986, $1,134,300,000,000 for FY 1987, and $1,212,800,000,000 for FY 1988.

States that the revised levels of total budget outlays are $967,250,000,000 for FY 1986, $1,028,500,000,000 for FY 1987, and $1,080,000,000,000 for FY 1988.

Sets the revised amounts of the deficits in the budget which are appropriate in light of economic conditions and all other relevant factors at $173,150,000,000 for FY 1986, $162,500,000,000 for FY 1987, and $124,400,000,000 for FY 1988.

Sets forth the revised levels of budget authority and budget outlays for each major functional category.

Requires certain House committees to report changes in laws within their jurisdictions sufficient to achieve savings of specified amounts of budget authority and outlays in FY 1986. Specifies changes in budget authority and outlays under laws within such committees' jurisdictions which the Congress finds necessary in FY 1987 and 1988 to achieve budget levels under this resolution. Requires such committees to submit their recommendations to the House Budget Committee not later than 30 days after final action on this resolution. Requires the Budget Committee to report a reconciliation bill carrying out such recommendations without any substantive revision.

Declares that, effective October 1, 1985, this concurrent resolution shall be deemed to be the second concurrent budget resolution for FY 1986 required to be reported under the Congressional Budget Act of 1974.

Permits the enrollment of any bill or resolution providing new discretionary budget authority or new spending authority for FY 1986 if it would not cause the appropriate allocation for a committee to be exceeded. Makes exceptions for legislation that would cause budget authority and outlays for certain off-budget spending programs to be included in the unified budget.

Terminates such provisions when the Congress completes action on a subsequent concurrent resolution on the budget for FY 1986.

Expresses the sense of the Congress that: (1) the Office of Management and Budget should release and apportion to the States the amount appropriated for the Special Supplemental Food Program (WIC program) for FY 1985; (2) the Administration should call for the convening of an international monetary conference this year for the purpose of exploring options to stabilize currency exchange rates, reduce interest rates, promote maximum domestic and world economic growth, and help assure domestic price stability; and (3) budget functional totals should be reduced to reflect a limitation on the amount of social security benefits paid to illegal and nonresident aliens.

Expresses the sense of the House of Representatives that tax reform should be adopted as soon as possible incorporating the following objectives; (1) responsiveness to market conditions; (2) simplicity of structure and lower marginal tax rates; (3) fair and equitable distribution of the tax burden; (4) a broader tax base; and (5) increased incentives for work, saving, and investment.

Expresses the sense of the House of Representatives that: (1) each of its standing committees should review, on a continuing basis and when considering public bills or resolutions, those portions of the President's Private Sector Survey on Cost Control (Grace Commission report) pertaining to such committee's jurisdiction; and (2) each committee report on a public bill or resolution should contain an identification of each recommendation of the Survey to be implemented and the resulting estimated program cost savings or revenue enhancement and a statement setting forth the disposition of each recommendation pertaining to such bill or resolution.

Preface

The *Digest of Public General Bills and Resolutions* has been prepared since the second session of the 74th Congress in 1936. Its principal purpose is to furnish, in summary form, the essential features of public bills and resolutions and changes thereto made during the legislative process. It also indicates committee and floor action and includes sponsor and cosponsor, identical bill, short title, and subject indexes. The final issue for a session should be retained permanently.

Each publication is divided into three major parts:

1. Action Taken During the Congress: This part, reflecting action taken throughout the Congress (including first session action in second session publications) is broken down into two sections: "Public Laws" and "Other Measures Receiving Action." The "Public Laws" section contains digests of public laws in order of enactment, their legislative histories, and a cross-index of public laws and originating legislation. "Other Measures Receiving Action" numerically lists the most current revised digests with their legislative histories, including, as appropriate: dates reported from committees, report numbers, dates considered on the floor, dates passed, conference actions, and date of presidential action.

A legislative anomaly occurred in the 99th Congress which resulted in the same House Joint Resolution (H J. Res. 738) being signed twice by the President, thus causing the designation of two public law numbers for the same piece of legislation. Due to the inability of the computer system to accommodate such an anomaly, Public Law 99-500 fails to appear in the "Public Laws Section" of this publication. However, Public Law 99-591 is the updated version of Public Law 99-500 and appears in its proper places in the publication.

2. Digests of Public General Bills and Resolutions: This part includes digests of all public bills and resolutions in numerical order as introduced. Private measures are identified by bill number only.

If a measure is identical to one introduced in the same Congress, reference is made from higher numbered measures to the earlier measure. With respect to measures having multiple sponsors, only the member whose name appears first on the bill is indicated; however, all sponsors are listed in the "Index by Sponsor and Cosponsor."

3. Indexes to Digested Bills and Resolutions:

INDEX BY SPONSOR AND COSPONSOR. This index provides a list of all public and private bills and resolutions sponsored and cosponsored by each Member of Congress, with a further breakdown by subject matter.

INDEX OF IDENTICAL BILLS. This index includes all measures which, as introduced, are word-for-word identical. These measures appear under the number of the first identical bill, with cross-references for each succeeding bill.

READEX FICHE best copy available

SHORT TITLE INDEX. This is an index of short titles of bills containing such titles in their texts. It is arranged alphabetically according to the first word of the title.

SUBJECT INDEX. This index identifies public bills and resolutions by subject. The index is preceded by a list of principal subject headings under which more detailed index entries may be found. Measures which have received action and appear in either the "Public Laws" section or the "Other Measures Receiving Action" section are denoted by an asterisk. Index entries for all public laws are also included.

Preparation of the *Digest* is the responsibility of the Bill Digest Section, American Law Division, Congressional Research Service, Library of Congress.

SENATE BILLS

S. 2001 Sen. Proxmire, et al.; 1/21/86. Finance

Amends title XVIII (Medicare) of the Social Security Act to require the Secretary of Health and Human Services to establish a program providing for research regarding outcomes of selected medical treatments and surgical procedures so as to assess their quality and effectiveness. Places a priority on the selection of procedures and treatments with significant costs, risks, hospitalization periods, and utilization patterns.

Authorizes appropriations from the Federal Hospital Insurance Trust Fund for FY 1987 through 1993 to carry out such research. Requires that at least 90 percent of the funds available in any fiscal year be used to fund grants to, and cooperative agreements with, non-Federal research entities.

Directs that the program be administered by the National Center for Health Services Research and Health Care Technology (Center). Directs the Secretary to appoint a National Advisory Council to advise the Secretary and the Center regarding the program.

S. 2002 Sen. Thurmond, et al.; 1/21/86. Environment and Public Works

Requires that specified appropriations be used for the Cooper River seismic modification project in South Carolina.

S. 2003 Sen. Moynihan; 1/21/86. Environment and Public Works

Acid Rain Control Act of 1986 - *Title I: Control Technology Development Program* - Acid Precipitation Act Amendments of 1986 - Amends the Acid Precipitation Act of 1980 to establish a research and development program for the control of acid rain. Requires the President to appoint a Panel on Acid Rain Technology to evaluate, select, fund, and report to the Congress on projects to develop control technologies which eliminate substantial portions of sulfur dioxide or nitrogen oxide emissions.

Requires the Joint Chairmen of the Acid Precipitation Task Force to establish a bilateral advisory group on transboundary air pollution with the appropriate Canadian officials.

Authorizes appropriations for FY 1987 through 1991. Permits funding requests for secondary and ancillary research projects.

Title II: Emission Reduction Program - Amends the Clean Air Act to establish an interstate transport and acid precursor reduction program. Designates an acid deposition impact region comprising a long-range transport corridor of 31 States east of the Mississippi and the District of Columbia.

Directs the Administrator of the Environmental Protection Agency to report to the Congress within two years on a study of long-range transport of pollutants problems in the remaining States.

Directs the Acid Precipitation Task Force to report to the appropriate congressional committees by the close of 1985 and 1987 on its research findings about acid precipitation, with recommendations for reducing its effects. Authorizes additional appropriations for FY 1985 through 1989 for the Task Force's comprehensive research plan for acid precipitation. Requires the Task Force to conduct research on advanced flue-gas cleaning and precombustion fuel treatment technologies and inherently low-emission combustion processes.

Directs the National Academy of Sciences to establish an Acid Precipitation Scientific Review Board to examine information concerning the causes and environmental effects of acid deposition, including the activities of the Task Force. Requires the Board to report to the appropriate congressional committees with recommendations for reducing acid deposition. Authorizes appropriations for FY 1985 through 1988.

Directs the Administrator to report to the appropriate congressional committees on enforceable measures adopted by the States to reduce sulfur dioxide emissions. Directs the Office of Technology Assessment to report to the appropriate congressional committees on a cost-benefit analysis of such measures. Requires such committees to conduct hearings on acid deposition after receiving the aforementioned reports.

Directs the Administrator to develop and report to the Congress on an inventory of sources of oxides of nitrogen in the acid deposition impact region.

Directs the Administrator and the Secretary of the Treasury to report to the Congress on a joint study of a system of fees on the generation of electricity in the acid deposition impact region to finance emissions reductions.

Authorizes the Administrator to make grants to States or interstate agencies for developing methods to neutralize the effects of acid deposition in bodies of water that no longer can support game fish species.

Sets forth sulfur dioxide emission reduction standards for the acid deposition impact region of ten million tons below 1980 levels by the beginning of 1994, permitting annual emissions of no more than 1.2 pounds of sulfur dioxide per million British thermal units of heat input. Includes emissions from major stationary sources with utility boilers, within the restrictions on increased emissions from sources or the start-up of new sources, except as specified. Restricts increases in emissions from major stationary sources of oxides of nitrogen, except as specified.

Permits States to reallocate necessary reductions among themselves so long as the total reductions of the States involved meet the required standards. Requires each impact region State to adopt enforceable emission reduction measures for sulfur dioxide, including compliance schedules. Requires the Administrator's approval and the other Governors' perusal of such measures.

Requires each major stationary source subject to an emission limitation to notify the Governor of the State, who shall notify the Administrator, within three years of its intended method of compliance. Requires sources choosing fuel substitution to be in compliance with their applicable emission limitations within five years. Requires those sources complying through the installation of a technological system of continuous emission reduction or the replacement of facilities to have entered into binding contracts for the same within five years.

Subjects owners of sources in noncompliance with the applicable implementation plans to the established emission limitation schedule and a noncompliance penalty.

Permits the use of the following measures to reduce emissions in addition to enforceable continuous emission reduction measures if such measures are enforceable by entities and persons other than the State in which the emissions occur: (1) least emissions dispatch to meet electric generating demand at existing generating capacity; (2) retirement of major stationary sources at an earlier than provided for date; (3) investments in energy conservation where emission reductions can be identified with such investments; (4) trading of emission reduction requirements and actual reductions through emission reduction banks or brokerage institutions; and (5) precombustion cleaning of fuels.

Directs the Administrator to review emission limits for certain major sources to determine if such limits are inappropriately based upon modeling credit for stack height above good engineering practice. Requires the State and the owner of such source to adjust emission limitations accordingly.

Makes it a violation of the Clean Air Act to emit an air pollutant which adversely affects the public health or welfare of another State.

Requires the USTR, within 90 days of submitting the annual report on trade barriers to the Congress, to establish export goals for the next three years for certain foreign countries which have trade barriers to a significant portion of possible U.S. exports and which deny market access to those U.S. exports that are less able to petition for relief. Requires the President under certain circumstances to consider such confidential commitments, assessment and strategy, and recommendations of the interagency trade organization. Sets forth factors which the Board must consider in identifying such populations at risk.

Directs the Board, within ten days of making a finding that a class or category of workers is a population at risk (30 percent greater incidence of disease than a comparable worker population not exposed to the hazardous occupational exposure), to recommend to the Secretary that individuals within such populations be notified. Prohibits the Board from considering economic feasibility in making such determinations.

Gives priority for Board review to those employee populations exposed to hazardous occupational exposures for which there exists a permanent standard under the Occupational Safety and Health Act of 1970. Requires the Board to provide interested persons with notice and opportunity to submit their views to the Board before making its findings and recommendations.

Directs the Secretary to determine whether a class or category of employees is a population at risk based on the Board's findings and recommendations unless the Secretary concluded that: (1) the Board's procedures for notifying interested persons are not met; or (2) to do so will endanger the health or safety of a class or category of employees.

Directs the Secretary, upon determination that a given class or category of employees is a population at risk of disease, to notify each individual within such population. Sets forth the required contents of such notification, including counseling information.

Directs the Secretary to establish a telephone "hot line" for such employees or their personal physicians to provide additional medical and scientific information concerning the nature of the risk and its associated disease.

Directs the Secretary to prepare and distribute other medical and health promotion material and information on any risk subject to such notification requirements and its associated disease.

Requires that the cost of testing, evaluation, and medical monitoring required by an employee as a result of hazardous occupational exposure and notification under this Act be included as a covered item in any health care financing system available to such employees through their employment or as an optional covered item for individual purchasers of health insurance. Provides that any treatment provided by a health care financing system to an employee for a subsequent disease that was subject to a notification under this Act may constitute an insurance subrogation claim against a workers' compensation program or insurance carrier.

Adds to the list of factors that the ITC shall consider in determining whether increased imports pose a threat of serious injury to the domestic industry concerned.

Requires that any ITC determination that a U.S. industry is threatened with serious injury shall be made on the basis of evidence that the threat of serious injury is real and that actual serious injury is imminent. Provides that such determination may be made on the basis of official statements of intended action made by a foreign government.

Authorizes the ITC, if it makes an affirmative determination that increased imports are a substantial cause of serious injury or threaten serious injury to a competing domestic industry, to determine the appropriate increase in duty or imposition of an import restriction and recommend the provision of adjustment assistance. (Current law authorizes the ITC either to: (1) recommend adjustment assistance; or (2) determine the appropriate import restriction or duty increase.)

Requires the Attorney General to grant such exemption if: (1) the applicants are members of any industry that has been injured or threatened with injury; (2) the action for which the exemption is sought is reasonably related to enhancing competition with foreign competitors to whom market share has been lost and outweighs any adverse competitive impact on the domestic market; and (3) the specified action would not violate other antitrust provisions. Requires the Attorney General to report any such exemption to specified congressional committees.

Requires the President, if the President elects to enter into multilateral negotiations to address problems not susceptible to unilateral solution, to report to the Congress on whether such negotiations have provided any substantial relief to the domestic industry. Requires the President, if such negotiations have not provided relief, to determine whether to increase or impose a duty or other import restriction on the imported article and the duration of such increase or imposition. Requires the import relief that the ITC found to be necessary to take effect upon enactment of a joint resolution disapproving the President's import relief action.

Requires the ITC to determine within 25 days whether the petition alleges all the necessary elements for relief. Requires the Secretary to initiate an investigation if the ITC finds that the petition is sufficient. Declares that the Secretary shall initiate such investigation upon request of the President, the USTR, or the ITC, or upon the Secretary's own motion.

Makes such information available in EPA offices or authorized State agencies upon submission of an affirmation that the reviewer is not employed by a pesticide company and will not violate specified confidentiality provisions. Provides criminal penalties for the wrongful disclosure of such data.

Title II: Conditional Registration - Prohibits EPA from granting conditional registration for a new use or active ingredient where the data concerning chronic toxicity, neurotoxicity, or teratogenicity are required for registration for a nonminor use, and such data requirement was in effect at the time the data studies were begun.

Provides that such conditional registrations shall not cause any unreasonable adverse effect on the environment and shall be in the public interest. Requires registrants to provide all additional registration data within a reasonable time.

Title III: Registration and Revenues - Establishes a pesticide reregistration schedule. Requires EPA to develop within: (1) 60 days a priority list of 300 pesticide active ingredients that have not been reregistered since September 30, 1978; and (2) 90 days a list of remaining chemicals that have not been reregistered since such date. Directs that highest priority be given to pesticides that: (1) are in major food or feed use and may result in postharvest residues; (2) may result in toxic residues in potable groundwater, fish, or shellfish; (3) have significant outstanding data requirements; or (4) are used in crops with high worker exposure.

Requires EPA data evaluations of such lists within 18 months, and 24 months, respectively. Grants registrants up to four years (plus a possible discretionary two-year extension) to complete any outstanding data requirements. Requires suspension of registration for failure to meet such deadlines. Requires EPA to complete registration within one year of receiving such data.

Provides with regard to such reregistration for a one-time fee of $50,000 to identify outstanding data requirements, and a one-time fee of $100,000 to evaluate and reregister the pesticide. Authorizes reduced fees for nonfood or nonfeed uses. Provides for apportioned fees in the case of multiple registrants. Establishes a related revolving fund in the Treasury for such funds.

Title IV: Inert Ingredients - Directs EPA to establish a priority list of between 50 and 75 inert ingredients based on health or environmental dangers. States that such list shall not be subject to judicial review. Sets forth the conditions for removal from such list based on administrative review or additional data.

Grants registrants up to four years (plus a possible discretionary two-year extension) to complete any required studies. Requires EPA to complete any required action within one year on receiving such data.

Provides for the substitution of listed inert ingredients with other inert ingredients not posing similar health or environmental dangers.

Requires pesticides containing listed inert ingredients to list them on the label. States that a pesticide whose ingredient statement does not satisfy the requirements of such Act (as amended by this Act) with respect to a listed ingredient shall not be misbranded until 120 days after the publication of the data plan or the date on which EPA approves a label change, whichever occurs later.

Requires registrants of pesticides containing listed inert ingredients to make necessary formula statement changes.

Title V: Public Right to Know - Requires registrants to develop and submit to EPA within 120 days a summary of health, safety, and environmental data (including U.S. production plants) supporting their registered active ingredients and/or priority inert ingredients.

Requires such summaries to be: (1) maintained and kept current by the registrant; and (2) made available to the public.

Title VII: Cancellation Procedures - Bases interim administrative review criteria on levels of risk, which may include consideration of currently available exposure data. States that absence of exposure data shall not delay or preclude initiation of an interim administrative review. Prohibits the Administrator from declining to initiate an interim administrative review solely on the basis of exposure unless adequate data on all relevant means of exposure have been considered. Prescribes notice, period of comment, and related procedures for the initiation of an interim administrative review.

Permits the Administrator to require changes to the labeling of a pesticide by informal rulemaking unless the changes are equivalent to a cancellation of a use, render the product unmarketable, or otherwise have a major economic impact on the product, in which case the changes shall be subject to the hearings procedures prescribed for cancellation and change in classification.

Revises from 90 days after a cancellation or suspension hearing to 12 months after issuance of the notice that gave rise to such hearing the period during which the Administrator must evaluate data and reports and issue an appropriate order.

Title VIII: False or Invalid Data - Directs the Administrator to issue immediately a notice of intent to suspend or cancel the registration of a pesticide if: (1) before the effective date of this Act it has been determined in the Industrial Biotest validation process that data submitted in support of such registration were invalid and have not been replaced; or (2) a registrant willfully submits material data known to be false in support of a pesticide registration. Sets forth the scope of review and other requirements for a hearing requested by any person adversely affected by a notice to suspend or cancel.

Makes it unlawful to willfully falsify all or part of any data submitted under FIFRA, or to willfully submit such false data knowing it to be false.

Title X: Export of Pesticides - Requires registrants exporting pesticide products to inform foreign importers and the appropriate government regulatory office in the importing country concerning pesticide products whose registrations are cancelled, suspended, restricted, are not registered for any U.S. use, or have been voluntarily withdrawn with concern for potential adverse public health or environmental effects. Requires the Administrator to provide similar notices to foreign governments and appropriate international agencies.

Requires labeling on exported pesticides that contains the same health, safety, and hazard precautions as on U.S. labels if such exports are substantially similar in composition and use to pesticides registered in the United States. Exempts exports from such requirements only if the precautions on the label conflict with the importing country's law.

Directs the Administrator to participate actively in international efforts to develop improved pesticide research and regulatory programs, and to provide foreign countries with technical assistance to develop such programs. Requires the Administrator, within one year of the effective date of this Act and every three years thereafter, to conduct and publish a survey of all countries importing U.S. pesticides or exporting agricultural commodities to the United States in order to ascertain pesticide registration procedures in such countries and to control residues on foods to meet U.S. tolerances. Requires an annual report to the Congress on such activities.

Sets specified deadlines for the Administrator to act with respect to applications and for the publication of notices about applications in the Federal Register.

Amends part A (Hospital Insurance) of the Medicare program to require the Secretary to establish performance standards for fiscal intermediary medical claims review which: (1) weigh the accuracy and timeliness of such review commensurately with cost savings from such review; (2) specify the qualifications required of review personnel; and (3) require an intensive level of review for new providers and providers with poor performance records. Requires the Secretary to annually inform the Continuing Care Policy Council regarding the intermediaries' performance under these standards.

Eliminates the three-day prior hospitalization requirement for extended care services.

Defines part-time or intermittent home health care to include one or more daily visits by a nurse or home health aide for up to 60 days, but thereafter requires a physician's certification of need for such daily services. Set limits on Medicare payments for home health services, but requires that such limits be applied on an aggregate rather than a discipline-specific basis for home health agencies. Adds to the definition of the term "peer review organization" so as to require such an entity to: (1) include in its composition representatives of other individuals responsible for the provision of services and items for which the organization is responsible for conducting quality assurance activities; and (2) have a consumer advisory board. Defines a "consumer advisory board."

Requires any peer review organization to: (1) educate Medicare beneficiaries; (2) provide for a toll-free 24 hour telephone number, which shall be provided to Medicare beneficiaries for the purpose of receiving questions and complaints from Medicare beneficiaries; (3) assist in resolving any such complaints that are legitimate; (4) make available to its consumer advisory boards appropriate information received from the telephone service; and (5) train members of its consumer advisory board.

C program; (3) the program will utilize the services of each private industry council to identify and provide advice on the types of available jobs; (4) the State will make every effort to coordinate its part C program with activities provided by the State's private industry councils; (5) there will be an employability plan developed for each individual registered for part C pursuant to part A's employment programs which describes the education and training needed for that individual to become self-supporting and which specifies the amount of transportation or child care allowance needed; (6) the entity administering part C will report to the agency administering part A any refusal without good cause to accept employment by an individual registered pursuant to part A's employment program; (7) any costs incurred by the State in administering its program will not be paid for with Federal funds; and (8) no individual registered under part C pursuant to part A's employment program will participate in a part C program for periods totaling more than two years. Title VI: Committee on Finance: Outlay Provisions - Subtitle A: Provisions Relating to the Medicare Program - Part I: Provisions Relating to Part A of Medicare - Amends title XVIII (Medicare) of the Social Security Act to raise the payment rates for inpatient hospital services by one and one-half percent for cost reporting periods in FY 1987. Requires that total out lier payments to sole community hospitals with an average occupancy of 50 beds or less and to small rural hospitals be no less than five percent nor more than six percent of the total payments expected to be made to such hospitals on the basis of prospective payment rates for discharges in that year. Alters the formula used to calculate the average standardized amounts for urban and rural hospitals under the prospective payment system (PPS) so that such amounts are based on the number of patients discharged rather than the number of hospitals. Provides that hospitals designated as rural referral centers as of the enactment of this Act shall retain that designation from FY 1987 until the close of FY 1989.

Reduces payments for hospital capital costs of inpatient services by three percent in FY 1987, five percent in FY 1988, and six percent in FY 1989. Exempts sole community hospitals from such reductions.

Sets the inpatient hospital deductible at $520 in 1987. Ties future increases in the deductible to the annual increase in the average cost of a Medicare hospital discharge instead of the cost of an average day of hospital care.

Requires a hospital to give Medicare beneficiaries, upon their admission to the hospital, a written statement explaining: (1) the individual's rights to benefits for inpatient hospital and post-hospital Medicare services; (2) the circumstances under which such individual will be liable for charges for a continued hospital stay; (3) the individual's right to appeal denials of continued hospital services; and (4) the individual's liability for payment for services if such a denial of benefits is upheld on appeal.

Directs the Secretary of Health and Human Services to conduct a demonstration project to determine whether the use of prior and concurrent authorization for skilled nursing facility and home health services, instead of current waiver of liability provisions, will protect beneficiaries from claim denial liabilities and delayed services. Requires the Secretary to report to the Congress on the results of the project by April 2, 1988.

Part 2: Provisions Relating to Parts A and B of Medicare - Prohibits workers' compensation laws, insurance policies, or large group health plans (covering at least 20 employees) from taking an individual's status as a Medicare beneficiary into account in providing coverage. Makes Medicare the secondary payor for all Medicare beneficiaries covered by workers' compensation, insurance policies, and group health plans. Authorizes the Federal government to bring an action and collect double damages from primary payors. Amends the Internal Revenue Code to impose an excise tax equal to 25 percent of group health plan expenses if such a plan restricts its coverage of Medicare beneficiaries in violation of this Act. Amends title XIX (Medicaid) of the Act to reduce payments to a State contributing to group plans which provide such restrictive coverage. Specifies the benefits Medicare pays when other payors are primary but do not pay full charge.

Requires Medicare intermediaries and carriers to process and pay at least 95 percent of all clean Medicare claims within 24 days of receiving such claims or, if shorter, within their average payment time for such claims during the first half of 1986. Assesses interest on claims paid beyond 24 days of their receipt. Eliminates periodic interim payments for PPS hospitals when prompt payments have been achieved for three consecutive months. Authorizes the reinstatement of interim payments when prompt payment is absent for three consecutive months.

Sets limits on Medicare payments for home health services, but requires that such limits be applied on an aggregate rather than a discipline-specific basis for home health agencies.

Requires providers of home health services to be paid if they did not and could not have been expected to know that payment would be denied on the basis that the individual was not homebound or did not require skilled nursing care on an intermittent basis. Requires the Secretary to publish final regulations specifying the criteria used in determining whether an individual is homebound or in need of such intermittent care. Permits beneficiary appeals of the Secretary's denials of claims for home health service benefits.

Prohibits providers who represent beneficiaries in unsuccessful appeals of claim denials from charging beneficiaries for representation costs or treating such costs as reasonable costs covered by Medicare.

Places a priority on the selection of procedures and treatments with significant costs, risks, hospitalization periods, and utilization patterns.

Authorizes appropriations from the Federal Hospital Insurance Trust Fund and the Federal Supplementary Medical Insurance Trust Fund for FY 1987 through 1989 to carry out such research. Requires that at least 90 percent of the funds available in any fiscal year be used to fund grants to, and cooperative agreements with, non-Federal research entities.

Part 3: Provisions Relating to Part B of Medicare - Amends part B of the Medicare Program to set forth factors which must be considered by carriers in determining reasonable charges for physicians' services. Authorizes the Secretary, when faced with a charge the Secretary believes is not inherently reasonable, to propose a reasonable charge or methodology for arriving at such a charge and, after giving the public and the Physician Payment Review Commission an opportunity to comment on such proposal, make a final determination regarding the charge or methodology. Requires the Secretary to review, by October 1, 1987, the inherent reasonableness of the reasonable charges for each of the ten most costly procedures paid for under Part B of the Medicare program.

Directs the Secretary to simplify the HCFA (Health Care Financing Administration) Common Procedure Coding System by July 1, 1987, to minimize the possibility that such system overstates the intensity or volume of services provided. Requires hospitals to adopt such system to code the part B services they perform.

Requires the Secretary, in making recommendations regarding the relative value scale for physicians' services, to establish an index which considers justifiable geographic differences in the costs of practice without exacerbating the geographic maldistribution of physicians.

Provides for the implementation of certain adjustments in the Medicare economic index for physicians' services.

Requires the Secretary to: (1) implement changes in monthly capitation payments and the method of computing such payments for physicians' outpatient maintenance dialysis services; and (2) reduce the prospective payment rates for dialysis facilities and providers. Directs the Comptroller General to study the appropriateness of such payment rates and report to the Congress by September 30, 1987.

Provides that the payment to hospitals for outpatient hospital services furnished in connection with surgery approved for performance in an ambulatory surgical center (ASC) shall equal the lesser of: (1) the reasonable costs for surgery minus 20 percent of the actual charge; or (2) the prospective rate for ASCs minus 20 percent of that rate. Requires the Secretary to annually review and revise ASC prospective rates as well as the surgical procedures approved for ASC performance and reimbursement. Requires peer review organizations to review the necessity and quality of ambulatory surgical procedures. Imposes the standard part B coinsurance and deductible for ambulatory surgery services. Directs the Secretary to: (1) develop packages of pre - and post - operative services for each surgical procedure performed in a hospital outpatient department; (2) develop a PPS methodology for all outpatient procedures; and (3) report to the Congress on these developments by 1991. Requires the Secretary to report to the Congress within two years of enactment of this Act regarding educational activities in hospital outpatient settings and the reimbursement of graduate medical education in such settings.

Provides Medicare coverage for outpatient occupational therapy services in the same manner in which outpatient physical therapy services are covered.

Part 4: Peer Review Organizations - Amends part B (Peer Review) of title XI of the Act to require peer review organizations receiving a hospital inpatient's request for review of a hospital's decision that the patient no longer needs inpatient care to inform the patient of its decision within two days of receiving the request. Prohibits hospitals from charging patients for inpatient hospital services provided while patients wait for a peer review organization to respond to their timely review requests.

Requires fiscal intermediaries to submit data to peer review organizations on a monthly basis. Requires peer review organizations to review selected cases where individuals are readmitted to a hospital within 30 days of their most recent hospital discharge to determine if the previous inpatient hospital services and post-hospital services met professionally recognized health care standards.

Directs each peer review organization to commit a reasonable proportion of its activities to review of the quality of services provided in cases and settings where potential quality problems have been identified. Requires the Secretary to identify methods facilitating the discovery of such cases.

Requires peer review organizations to share data with organizations responsible for accrediting providers or State licensing authorities responsible for assuring quality care if such data reflects a substantial failure by providers or practitioners to provide quality care.

Subtitle B: Provisions Relating to the Medicaid Program - Amends title XIX (Medicaid) of the Act to give States the option of extending coverage to women in need of pregnancy-related medical services and children up to age five whose family income exceeds current income eligibility thresholds, but does not exceed a State maximum income level to be established at or below the Federal poverty level. Leaves to each State's discretion the decision as to whether a resource standard shall be applied in determining the eligibility of such women and children. Prohibits States which provide coverage pursuant to this Act from reducing Aid to Families with Dependent Children (AFDC) payment levels after enactment of this Act. Gives States the option of extending Medicaid coverage to elderly and disabled individuals whose income is too high for them to qualify for Medicaid under current income tests, but does not exceed a State maximum income level to be established at or below the Federal poverty level. Requires States providing coverage under this Act to provide Medicaid coverage, to pregnant women and infants whose income does not exceed a State maximum income level which, while at or below the Federal poverty level, is not necessarily the same as the level established for newly eligible aged and disabled individuals.

Authorizes the States to provide Medicaid coverage for Medicare premiums, deductibles, and coinsurance payments for which Medicare-eligible individuals whose income does not exceed the State maximum income level would otherwise be accountable.

Requires States to cover home respiratory services for individuals who: (1) are medically dependent on a ventilator for life support for at least six hours a day; (2) have been so dependent for at least 30 consecutive days as inpatients; and (3) wish, and have adequate social support services to be cared for at home.

Amends the Consolidated Budget Reconciliation Act of 1985 to hold a State harmless in FY 1987 against changes that Act effected in the annual calculation of the Federal medical assistance percentage under the Medicaid program if such changes would cause a reduction of Medicaid payments to the State in FY 1987.

Directs the Secretary to enter into an agreement with New Jersey to conduct a Medicaid demonstration project which shall be administered by a State health agency and which provides respite care services, including: (1) short-term sitter, homemaker, and personal-care services, adult day care, inpatient care, and emergency respite; and (2) peer support and training for family caregivers. Provides such services to elderly and disabled Medicaid-eligible individuals and to other elderly and disabled individuals, for a reasonable fee, who would otherwise require institutional care. Provides that priority, among the latter group, shall be given to those who would be eligible for Medicaid benefits upon institutionalization.

Provides that the State and Federal governments shall each cover one-half of project costs, but sets a fiscal year limit on Federal outlays.

Limits the duration of the project to four years, plus an additional period of up to six months for final evaluation and reporting. Sets forth reporting requirements.

Permits States to provide ambulatory prenatal care to women during a presumptive eligibility period not to exceed 45 days if: (1) the woman has begun maternity care with a qualified provider; (2) the provider determines that the woman's family income falls below the applicable Medicaid standard and notifies the State of the woman's eligibility within five working days; and (3) the woman applies for such benefits within 14 days of being presumed eligible.

Subtitle C: Miscellaneous Provisions - Amends part D (Child Support) of title IV of the Act to prohibit the retroactive modification of child support arrearages except with respect to such arrearages which accumulate after the obligee and entity which issued the child support order receive notice that the obligor has pending an active application for modification of such order.

Amends the Consolidated Budget Reconciliation Act of 1985 to hold a State harmless in FY 1987 against changes that Act effected in the annual calculation of the Federal medical assistance percentage under part A (Aid to Families with Dependent Children) of title IV of the Act if such changes would cause a reduction of AFDC payments to the State in FY 1987.
